Subject: **The importance of water and how to save it.**

Hi Fahd,

How are you? I hope that you are fine. In this e-mail, I'm going to tell you about the importance of water and how to save it. Water is the secret of life. It is a precious gift from Allah. There are many essential uses of water. We use water for washing, cooking, farming and drinking. We can also use it to clean dishes and to grow crops. It is very important for personal hygiene.

It is necessary to save water by turning the taps off. We should show advertisements on TV. We should use bottles when we brush our teeth and buckets when we wash our cars. Fixing the broken pipes helps in saving water. We shouldn't waste water. Finally, don't forget to share this with your family and friends.

Best wishes,
From Mohamed,
